

Face Plates, Surface Jacks, Couplers & Adapters

Type	Description
T-6019A	Face plate - single type - 6P4C
T-6019B	Face plate - Dual type - 6P4C
T-6009A	Single surface jack - 6P4C
T-6009B	Single surface jack - 6P6C
T-6010A	Dual surface jack - 6P4C
T-6010B	Dual surface jack - 6P6C
T-6004A	Cord coupler - 6P4C
T-6004B	Cord coupler - 6P6C
T-6005A	Triplex adaptor - 6P4C
T-6005B	Triplex adaptor - 6P6C
T-6006A	Duplex jack - 6P4C
T-6006B	Duplex jack - 6P6C
T-6007	3 way jack - 6P4C

Face Plate

Face Plates are available in single or dual type.

Material : High Impact ABS Thermoplastic; UL 94V-O rated.

Outlet : 6P4C

Single Surface Jack

Single Surface Jack has one 6P4C outlet and available with or without shutter.

Dual Surface Jack

Dual Surface Jack has two 6P4C outlets and available with or without shutters.

Cord Coupler

Cord Coupler is a modular in-line coupler with two 6P4C female outlets on both sides to couple two cords fitted with 6P4C male connectors.

Triplex Adapter

Triplex Adapter has two 6P4C female outlets on one side and one 6P4C female outlet on other side.

Triplex adapters are used to get two parallel outputs from one input line.

Cords fitted with 6P4C male connectors can be used for input & output.

Duplex Jack

Duplex Jack has two 6P4C female outlets on one side and one 6P4C male plug on other side.

Duplex jacks are used to get two parallel outputs from one input line.

Male 6P4C plug is used for input and cords fitted with 6P4C male connectors can be used for output.

Three Way Jack

Three Way Jack has three 6P4C female outlets on one side and one 6P4C male plug on other side. Duplex jacks are used to get three parallel outputs from one input line.

Male 6P4C plug is used for input and cords fitted with 6P4C male connectors can be used for output.
