## Mounting Frames

Mounting Frames or Back mounting frames are used to fix modules. Mounting frames are fixed in the enclosures and modules are clip on to mounting frames.

Mounting frames are made of Stainless steel and available in different sizes. 50 & 100 pairs are the most popular sizes.

Mounting Frames with Plastic fittings are available and it's easy to install with cable guide, allows several frames joint together.

19" Rack Mountable Frames are used to fix profile type modules. 19" Rack Mountable Frames are fixed on to the mounting angles of 19" Racks and profile type modules are clip on to the horizontal bars of rack mountable frame.
